AMENDMENT OF EXAMINERS FOR A DOCTORAL CANDIDATE

4. NEW / AMENDED EXAMINER INFORMATION

Guidelines

- A doctoral dissertation must be examined by three examiners: one internal and two externals. All examiners must each have a doctoral degree.
- The independent internal examiner should be appointed at Stellenbosch University. Extraordinary lecturers/professors and research fellows at SU are considered internal examiners.
- One independent external examiner should be appointed at any other university or research institution in South Africa. In this case, their professional affiliation must be stated.
- One independent external examiner should be appointed at any other university or research institution outside South Africa. In this case, their professional affiliation must be stated.
- A person who was previously associated with or appointed at SU must have not been in service of this university for a period of at least three years before that person can be appointed as an external examiner.
- The non-examining chair must be a senior colleague (associate, full or distinguished professor) within the faculty but from a department other than the one in which the candidate is registered as a doctoral student.
- **IMPORTANT:** Only electronic versions of the dissertation will be sent to examiners, who are welcome to print their own hard copies.
